

Weather Forecast Tuesday 20 March 2018

**Synoptic Situation at 07.00 A.M**

The heat low covers upper Thailand. Hot weather is likely over the upper country. The high pressure areas from China extend to cover the upper Vietnam, Laos and the upper South China, expected it will extend to covers upper Thailand and the South China Sea during 20-23 March, colliding with hot air over the area. Outbreaks of summer storms, together with thundershowers, gusty winds and hail, will be possible over the Northeast and the East by 20 March. The North and the Central including Bangkok and its vicinity will be affected by these severe conditions in the later day (21 March). People should keep off unsecured buildings and outdoor places while farmers beware of crop damage.
